

We Specialize in the following Adobe Tools

streaming[®]
BASE

AIR

Adobe® Integrated Runtime

Adobe® AIR™ lets developers use their existing web development skills in HTML, AJAX, Flash and Flex to build and deploy rich Internet applications to the desktop. <http://labs.adobe.com/technologies/air/>

Apollo Prerelease Program

Apollo is the code name for a cross-operating system runtime being developed by Adobe that aims to allow web developers to leverage their existing development skills (such as Flash, Flex, HTML, JavaScript) to build and deploy rich internet applications to the desktop.

Fx

Adobe® Flex™ 2

Adobe® Flex™ 2 is a cross-platform development framework for creating rich Internet applications (RIAs). Flex enables you to create expressive, high-performance applications that run identically on all major browsers and operating systems. <http://labs.adobe.com/technologies/flex/>

Flash Media Server Prerelease Program

Welcome to Adobe Flash Media Server 3.0, codenamed Mustang, Prerelease program. This will be the first release of Flash Media Server under the new Adobe banner. We're very excited about this release. The themes for Mustang are Performance, Security, Live video and a better out-of-the-box experience for our customers.

Adobe Media Player Prerelease Program

The Adobe® Media Player software enables end users to enjoy their shows whenever and wherever they want, while enabling new ways for content businesses to create, deliver, and monetize high-quality content and advertising through a customizable cross-platform player that supports both downloaded and streamed media.

FL

Flash® CS3 Professional

Adobe® Flash® CS3 Professional software is the most advanced authoring environment for creating rich, interactive content for digital, web, and mobile platforms. Create interactive websites, rich media advertisements, instructional media, engaging presentations, games, and more. <http://www.adobe.com/products/flash/>

Ps

Adobe® Photoshop CS3

The essential software for perfecting your images, Adobe® Photoshop® CS3 now offers productivity and workflow enhancements, powerful new editing tools, and breakthrough compositing capabilities. <http://www.adobe.com/products/photoshop/>

Flash Media Encoder Prerelease Program

Flash Media Encoder is a Live VP6-based Flash Video Encoding and Streaming desktop application. Similar to other desktop based live encoding applications.

Flash Media Encoder provides the technical event producer with an easy to use Windows based application that captures live audio/video feeds, encodes the feeds into Flash audio/video, and streams them up the Flash Media Server or the Flash Video Streaming Server for broadcast.

Flex 3.0 Prerelease Program

Flex "Moxie" has 4 major themes:

Designer/developer workflow

Enhance design view to facilitate design production and skinning. Integrate with Creative Suite tools to enable efficient workflow between designers and developers.

Working with data

Make it easy to get started connecting Flex applications to common services and server environments. Enable richer data display and manipulation through new and enhanced data components.

Apollo applications

Enhance the framework to take advantage of new Apollo concepts and services. Enable efficient development and deployment of Apollo applications in Flex Builder.

Platform Evolution

Increase developer productivity by delivering core development/debugging tools. Enhance the core framework to fill in gaps and increase productivity.

LC

Adobe® LiveCycle® Enterprise Suite

Adobe® LiveCycle® Enterprise Suite software is an integrated J2EE server solution that blends electronic forms, process management, document security, and document generation to help you create and deliver rich and engaging applications that reduce paperwork, accelerate decision-making, and help ensure regulatory compliance.

Adobe® Flash Media Encoder

Adobe® Flash® Media Encoder is designed to enable technical producers to capture audio and video while streaming it live to Flash Media Server (FMS) or the Flash Video Streaming Service (FVSS). When high-quality streaming is your top priority, Flash Media Encoder helps you broadcast live events. <http://www.adobe.com/products/flashmediaserver/flashmediaencoder/>
